while there are many english books available on academic research methods and philosophy many complain that they are difficult for budding non native english speaking researchers to use and understand rather than hiding behind jargon writers should describe and define the concepts for the benefit of non native english speakers social research methodology and publishing results a guide to non native english speakers explains methods commonly used in the field of academic research provides stimulus to non native english speaking researchers for successful implementation of academic research and meets the need for an appropriate course framework and materials for teaching research methodology covering topics such as pragmatism research design and empirical modeling this premier reference source is a dynamic resource for educators and administrators of higher education pre service teachers librarians teacher educators non native english speaking researchers and academicians

this book provides a guide to such budding social researchers who are non native english speakers drawing examples from literature to show how to conduct a research present research results integrate with existing literature to draw conclusions through real world examples existing english books teaching research methods and philosophy of academic research are written in academic english and it is hard for non native english speaking budding researchers to study and understand those books also this book uses examples to show how to communicate with journal editors and peer reviewers to get published the research results as journal articles book chapters or conference papers this book connects different quantitative techniques qualitative methodologies case studies phenomenology and ethnography and grounded theory as well as mixed methods methodology through a single example this book attempts to describe a holistic approach introducing a 10ps model that incorporates the essential elements of the research process the process focuses on combining philosophical framework and arguments from research results this book focuses not only on conducting a research project but also on the approach and procedures to be followed to achieve higher marks for course work assignments and publishing research articles in international journals this book shows how to create many papers from one research data set to increase number of publications and citations this book has fewer words and more illustrations tables figures pictures and youtube tutorial links this book outlines how to present test results in apa style for all the statistical test used in this book using examples

an essential introduction which shows you how to work in solution focused ways with people in all stages of adulthood including those with illness mental disability and emotional trauma it includes example activities that can be used to guide service users to use their own strengths to realize their personal goals

too often in practice there is a tendency to pathologize clients requiring a diagnosis as part of the helping relationship suppose however that most of the client problems that social workers encounter have more to do with the vagaries of life and not with what clients are doing wrong this powerful idea is the philosophy behind the strengths based approaches to social work this groundbreaking practice handbook takes this concept one step further combining the different strengths based approaches into an overarching model of solution

oriented social work for greater impact the strengths perspective emphasizes client strengths goal setting and a shared definition of positive outcome solution focused therapy approaches ongoing problems when they have temporarily abated amplifying exceptions as solutions this natural but rarely explored pairing is one component in the challenging and effective practice framework presented here by the authors two seasoned practitioners with over 50 years of combined experience by integrating the most useful aspects of the major approaches a step by step plan for action emerges with this text in hand you will integrate elements from the strengths perspective solution focused therapy narrative therapy and the strategic therapy of the mental research institute the mri approach into an effective and eclectic framework build and practice your skills using case examples transcripts and practical advice equip yourself with the tools you need to emphasize clients strengths challenge the diagnosis first medical model of behavioral health care collaborate with clients to get past thinking first order change and more to acting outside the box second order change learn to work with a wide variety of clients including individuals groups and families involuntary clients clients with severe mental illness and clients in crisis for any student or practitioner interested in working with clients towards collaborative and empowering change this is the essential text
